

WHY CHOOSE CLEAR SPIDER?

1

It's easy to use. Since Clear Spider is role based, users get exactly what they need, which makes training a snap.

2

You have the ability to customize the system to make it as simple or complex as you require- simple part numbers to tracking shelf life and batch numbers.

3

No rekeying of data is required. Bar coding and API's ensure information is captured and posted if using Clear Spider and/or tying into another system.

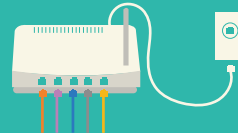

4

Review the right reports to make sure you are maximizing your savings.

5

Its collaborative. You can involve multiple parties- from suppliers to customers, so everyone is on the same page, saving you time, money, phoning , faxing, and expediting.

6

You can use it on the go.

7

The system alerts you when you need more product, so you can do better things with your time than count inventory. Pick the right algorithm to minimize your inventory spending.

8

There's nothing for you to build or maintain. There's no hardware or software to buy or support. Clear Spider does it all for you.
